**3. Standards for Height, Weight and Chest measurements.**—  
(a) **Height.**—(i) The height of a candidate will be measured by making him stand against the standard with his feet together. The weight should be thrown on the heels and not on the toes or outer side of the feet. He will stand, erect without rigidity and with the heels, calves, buttocks and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be recorded in inches and quarter parts thereof. The minimum height for a candidate is 62" except in the case of Gorkhas, Nepalese, Assamese and Garhwal candidates for whom the minimum height is 60". Candidates who are otherwise fit in all respects but fall short of minimum height by half an inch or less, will be treated as special cases and relaxation allowed to the extent of half an inch.

(b) **Weight.**—(i) Weight will be taken with candidates fully stripped or with underpants only. In recording weight fractions of a pound will not be noted. A table showing correlation between height, age and average weight is given below for guidance.

Age Period	20—24	25—29	30—34
Height inches	lbs.	lbs.	lbs. weight
62	109	113	116
63	112	116	119
64	116	119	122
65	118	123	126
66	122	125	128
67	125	129	132
68	129	133	137
69	133	137	141
70	137	141	146
71	141	146	151
72	146	152	157

(ii) It is not possible to lay down precise standards for weight in relation to height and age. The correlation table is, therefore, only a guide and cannot be applied universally. A 10 per cent departure from the average weight given in the table is to be considered as within normal limits. There may nevertheless be some individuals who according to the above standard may be overweight but from the general build of the body are fit in every respect. The over-weight in such cases may be due to heavy bones and muscular development and not to obesity. Similarly for those who are under-weight, the criteria should be the general build of the body and proportionate development rather than rigid adherence to the standards in the above table.

(c) **Chest.**—The chest should be well developed with a minimum range of expansion of 2 inches. The candidate's chest will be measured by making him stand erect with his feet together and his arms raised over his head. The tape will be so adjusted round the chest that its upper edge touches the inferior angles of the shoulder-blades behind and its lower edge the upper part of the nipples in front. The arms will then be lowered to hang loosely by the side. Care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to take a deep inspiration several times, and the maximum and minimum expansions of the chest will be carefully noted. The minimum and maximum will then be recorded in inches thus 38/35, 34/36, etc.

In recording the measurements, fractions of less than half an inch should not be noted.

**4. Dental conditions.**—It should be ensured that sufficient number of sound natural teeth are present for efficient mastication.

(a) In order to assess the dental condition of an individual; teeth in apposition with corresponding teeth in the other jaw will be allotted points as follows:—

(i) Central incisor, lateral incisor, canine 1st and 2nd premolar and under developed third molar  
1 point each.

(ii) 1st and 2nd molar and fully developed third molar  
2 points each.  
When all 32 teeth are present there will be a total count of 22 points.

(b) A candidate must have a minimum of 14 dental points to be acceptable.

(c) The following teeth in good functional apposition must be present in each jaw.

(i) Any 4 of 6 anteriors.

(ii) Any 6 of 10 posteriors.

(d) Candidate suffering from severe pyorrhoea will be rejected. When the state of Pyorrhoea is such that in the opinion of the Dental Officer, it can be cured without extraction of teeth, the candidate may be accepted. Candidates may be accepted if they have well fitting artificial dentures in lieu of sound teeth.

**5. Visual standards.**—The minimum acceptable standards of visual acuity are given below:—

Better Eye

Distant Vision V Without—  
glasses not below 6/60 and  
after correction with glasses  
not below 6/6

Worse Eye

V Without glasses not  
below 6/60 and after  
correction with glasses  
not below 6/24

Near Vision—Reads 0.8 or J4.

Reads 1 or J6.

There should be no evidence of choroidal degeneration or any other pathological condition of the fundus.

**NOTE.**—A relaxation of standards for distant vision without glasses may be made and an individual with unaided vision of less than 6/60 each eye accepted provided corrected vision is not less than 6/6 in one eye and 6/18 in the worse eye.

In all cases, where glasses are worn and where a candidate is examined by an Ophthalmologist, power of lenses must be noted.

**Field of vision.**—Normal in each eye as tested by confrontation test.

**Colour vision.**—Colour vision less than 'Defective' safe. (Ishihara plates) will be a cause for rejection.

**6. Hearing Standard.**—Should with the back to the examiner be able to hear a forced whisper at a distance of 20 feet with each ear separately.

7. The above physical standards will also apply to female candidates except for the following:—

(a) The height and weight need not conform to the existing height and weight table for men. Minimum height and weight should be 4' 8" and 80 lbs. respectively.

(b) The girth and the general development of the chest also need not conform to what is laid down in the existing physical standards for men. The candidate should, however, be capable of a chest expansion of 2".

(i) Re. 1/- when asking for application form and connected documents.

This amount should be paid to the Commission by money order. Local candidates, however, may pay cash at the counter. The Commission will not accept payment made otherwise.

The Commission will consider this evidence on its merits but do not bind themselves to accept it as sufficient.

(v) **Two copies of Photograph.**—A candidate must submit two passport size copies of his recent photograph, one of which should be pasted on the first page of the application form and the other copy should be firmly attached with the application form.
